Honolulu Star-Bulletin

3:30
Edition

Evening Bulletin, Est. 1882, No. 5287.
Hawaiian Star, Vol. XX, No. 6328.

24 PAGES.—HONOLULU, TERRITORY OF HAWAII, SATURDAY, JULY 13, 1912.—24 PAGES.

PRICE FIVE CENTS

NOTORIOUS LORIMER THROWN FROM SENATE

SHINGLE AS DELEGATE IS PLAN

Movement to Reach Compromise, with Kuhio for Mayor

Robert W. Shingle for delegate to Congress, and Prince Kuhio for mayor of Honolulu is a program that prominent Republicans of the city are working towards.

The Star-Bulletin learned today definitely what has been rumored for some days, that a concerted effort is being made to urge upon Shingle that he become a candidate for delegate. The movement is strong. It has enlisted very prominent Republicans who were lined up with the Pro forces when Shingle was counted a Kuhio supporter at the territorial convention last April.

Shingle is no longer to be counted as an out-and-out Kuhio supporter, it is thus evident, and the fact is taken for granted that he has found himself unable to follow Kuhio in the delegate's later attacks on the Territorial administration.

Shingle's answer to the urgent request that he run for delegate has not been given, it was said this morning. He will have that answer ready within the next two or three days, it is believed, and some of his friends doubt if he will wish to run.

Together with this movement, there is an attempt going forward to induce the delegate to come to some compromise in his fight and to run for Mayor.

Kuhio's strength did not show itself in the Republican precinct club nominations last night.

That there will be interesting developments shortly is a foregone conclusion. If the Shingle-for-delegate plans prove successful, the Republican situation will clarify itself rapidly.

DAVIS TOSSES HIS HAT IN RING

"Yes, there is a fight in the fourth of the fourth," said George A. Davis this morning.

"There will be no divided vote against Shingle. It will be a fight between Shingle and me, Judge Davis continued.

"General Soper is away and Mr. Chillingworth is practically elected as first vice president, so that I am Shingle's only opponent."

"I was the first vice president of the club and I have done as good work for the party as anybody. It doesn't amount to much to be club president, but I will stand my ground."

"I am a poor man, but I stand on my record for the past. In the last campaign I made the closing speech and it was said to have been the best delivered in the campaign."

"The outcome depends on fair play in the Republican ranks. Shingle has an office in the city and county government and ought to be satisfied. I have always considered the Republican party as one for the poor as well as the rich. If I do not handle as much money as some other people, I have always done my best for the party and for good government."

KILAUEA OFF IN BRILLIANT FIRE DISPLAY

Not in Thirty Years Has Such Activity Been Witnessed

500 LAVA FOUNTAINS
SPOUTING OUT FLAMES

Hilo People Rushing to Scene, Wakened by Glare That Lights Countryside

Old Kilauea is in brilliant action again!

Wireless news received today by the Star-Bulletin from Hilo is to the effect that the crater is more active now than for any time within the last thirty years.

Not within the memory of most of the hundreds who have been witnessing the display for the last few hours has the volcano shown such wonderful and awe-inspiring action.

A wireless message to the Star-Bulletin this morning asked that this paper notify the Promotion Committee and the Inter-Island Steam Navigation Company of the extraordinary display, and notice was accordingly sent. Only once or twice in a lifetime, it is declared, are such chances given to see the greatest active volcano in its greatest activity.

W. T. Rawlins this morning wireless the Star-Bulletin as follows:

"Kilauea more active than in thirty years. A grand display of lava fountains is shown, and the glow is distinctly visible from Hilo."

The Star-Bulletin's special correspondent at Hilo also sent a wireless message, as follows:

"A great red glare from the volcano colored the sky last night. Hundreds of Hilo people watched the display from their lanais. It is the most wonderful sight seen since the last big lava flow. Prof. T. A. Jaggar, the volcano expert in charge of the observation, says that the fires are more active now than at any time since he has been there. He calls it extraordinary. Allick, the veteran guide says the display is the most wonderful in the last thirty years."

"Over five hundred lava fountains are playing, and the whole lake is a living mass of fire, the fire rising rapidly in the crater. Hilo people are rushing to the scene."

RAPID TRANSIT BILL MAKES PROGRESS

A cablegram has been received from Washington asking for further details of information relative to the proposed extension of the Rapid Transit Company's system to Pearl Harbor naval station.

The company was in position at the moment to give a thoroughly satisfactory reply, the conditions about which concern was implied in the inquiry having already been fulfilled.

It is believed by the Rapid Transit people that the request for information indicates that the progress of the bill, to promote which President L. Tenney Peck has been in Washington for some weeks is being expedited.

With regard to the report published here that the War Department was stipulating that the Government should own the part of the line to pass through the Fort Shafter reservation, the Rapid Transit officers here believe that nothing of the kind has been broached in Washington. What they regard as probable is that the Government will own the connecting part of the line which is to pass through the naval station. On this matter the company's plans only contemplate bringing the line to the border of the naval station reserve.

SAILOR BREAKS LEG
IN BOARDING TRANSPORT

AUTO WRECKS MOTOR CYCLE; HUSTACE HURT

A. P. McDonald Violates Road Law and a Collision Results

CYCLIST'S NOSE BROKEN;
BADLY BRUISED AND CUT

Driver of Auto Admits Blame and May Be Prosecuted by Police

Driving his machine on the wrong side of the street, and wearing glasses with which he says he was unable to see for any distance, A. P. McDonald, the contractor, hurled his auto into a motorcycle, ridden by Frank W. Hustace at King and Piikoi streets at 6 o'clock last evening. Hustace was severely injured. His nose was broken, his face and head were cut and bruised, and his right shoulder was wrenched. His motorcycle was practically wrecked. McDonald had the tires knocked off the front wheels of his auto in the collision.

This auto accident, the fifth within ten days, one of which resulted fatally, was due to the carelessness of McDonald, the driver of the auto, according to Motorcycle Officer Chilton who says McDonald admits that he was to blame inasmuch as he violated the ordinance regarding the rights of the road. Chilton stated that he intended to have McDonald appear in court to answer to the charge of violating the ordinance.

It appears from the stories told by Hustace and McDonald that the latter was to blame. McDonald in his statement to Chilton is quoted as saying:

"I was driving along King street on the right hand side going East. As I cut into Piikoi street I must admit that I did so on the wrong side. Frank W. Hustace, on a motorcycle, was coming in on King street on the right side and hit the right side of my machine as I turned into Piikoi, knocking off both tires from the front wheels."

"I have two pairs of glasses, one concave for reading, and the other straight for the street. I had on my reading glasses and could not see."

(Continued on Page 2)

NEXT MOVE OF PROGRESSIVES IS NOT CERTAIN

The next move of the "Progressives" is not yet settled. They are waiting for more definite news from the mainland as to Hawaii's part in the August convention.

But meanwhile they are spreading Progressive doctrines and principles. Also they are getting together the nucleus of organization. Former Governor George R. Carter came down town this morning but no definite steps were taken today.

"We have not received any permission to go ahead and elect delegates from Hawaii," said Mr. Carter. "We shall probably hold a meeting shortly, but the plans for it are not definitely settled. I am ready to meet any set of men over two, or any mail in debate, or any organization, to give reasons for our attitude and for the Progressive movement. All we can do just now is to expound our principles. We don't know whether Hawaii is to be allowed any delegates to the convention or not."

DUKE PROBABLY RESTING TODAY

Although the finals in the 100-meter swimming race at Stockholm were originally set for today, it is believed that it was postponed because of the relay race yesterday, in which Duke Kahanamoku of Honolulu helped win a great victory for the United States.

The Duke Kahanamoku fund is growing, and there is more than a hundred dollars now pledged toward buying a substantial gift for the young Hawaiian athlete to present to him on his return.

The Star-Bulletin is receiving subscriptions. Address "Duke Kahanamoku Fund, Care Star-Bulletin, Honolulu."

Prof. Severin Ousted From College Faculty

Board of Regents Remove the Fruit-Fly Expert for Good of Institution

"Resolved, That in the opinion of the board of regents, the best interests of the College of Hawaii and its relationship to the Territory will not be conserved by the retention of Dr. Severin on its faculty beyond the period ending August 31, 1912."

With the above resolution, passed by the board of regents on June 17, two days after the close of the California fruit growers' convention in Santa Barbara, Cal., during which he read a paper denouncing the fruit fly campaign here as a "farce," Dr. H. H. Severin, Mediterranean fruit fly expert, was removed from his position on the faculty of the College of Hawaii because of acts considered inimical to the interests of the Territory and the college.

President Gilmore forwarded a copy of the resolution to Dr. Severin, who is on the mainland, but has received no reply from him.

Praise for His Work.

President Gilmore of the College of Hawaii, in commenting upon the retirement of Dr. Severin, said:

"We have nothing but praise for the work Dr. Severin performed while connected with this institution. He is a very capable man and untiring in his investigations, but we felt that he was not by temperament fit for the position he was holding. He was rash in his speech and prone to make charges based upon hasty conclusions, and for this reason we did not believe his connection with the college was conducive to the best interests of the institution."

"That the board of regents appreciated the work performed by Dr. Severin may best be shown by an extract from the minutes of the meeting at which Dr. Severin was removed, in which he is referred to as follows:

"The board was unanimous in its praise and support of the investigations he has carried out and the results he has obtained."

Styled Campaign Farce.

Dr. Severin recently came into prominence as a result of a paper which he read before the California Fruit Growers' Association, in which he charged that the campaign against the Mediterranean fruit fly as conducted here is a farce and declared that Inspector Weinland, representing the California State board of horticulture here, was negligent and not in sympathy with his employers. Severin urged that a quarantine be placed against Hawaiian bananas and pineapples, intimating that he had discovered that these fruits would carry the fruit fly to California.

Severin's paper failed to have its desired effect with the Californians, but it is believed that the position he assumed, without apparent grounds, against the interests of the Territory had much to do with his removal.

Young Elopers Distance Irate Parents in Race Through Streets

Judge Advises Couple to Wed and Court Officials Aid Flight

Love laughed at locksmiths and irate parents this morning when a hot pursuit of a fleeing young couple ended with the young couple yards to the good, disappearing in a fast-sailing hack, and the irate parents breathless, angry and baffled.

The tragic-comedy of marital and nuptial life was enacted before a big and appreciative audience about 9 o'clock, on Bishop street. To begin at the beginning, a young Hawaiian boy and a Portuguese girl determined some weeks ago to wed in spite of parental objections. They couldn't put it over, however, and this morning both were up before Juvenile Court Judge Whitney, with the angry Portuguese parents determined to prevent the match.

After questioning the young people, Judge Whitney decided that they really

ought to be allowed to wed. Court Clerk Marcellino thereupon sneaked the girl out one door and the boys out the other, with instructions to "beat it."

They started to beat it. The noise of their fleeing footsteps in the hall awoke the parents to the fact that an elopement was the next thing going on. Followed then a chase that made young Lochinvar's flight with the lost bride of Netherby, and the clans in pursuit, look like a stroll on the roof-garden after 10 o'clock at night.

Chase on Busy Street.

Rosa's parents aren't in the Olympic class as sprinters, but the way they tore down the courthouse stairs, along Hotel street and down Bishop street after the scampering youngsters was well worth the price of admission.

Rosa and her lover ducked into the mauka entrance of the Young Hotel, dashed through a rear door and out by one of the numerous gates ajar at the back. There they are reported to

Great Britain To Aid Silvestri In His Hunt For Fruit Fly Foe

Dr. Silvestri, the Italian entomologist who has been employed by the Board of Agriculture and Forestry of the Territory to head an expedition into Africa in search of parasitic enemies of the Mediterranean fruit fly and boll worm, is to have the assistance of English officials in British West Africa.

That they will offer every facility to aid in the success of Dr. Silvestri's search was learned today by Governor Frear, in a communication from the Secretary of State, transmitted through the office of the Secretary of the Interior. It states that Great Britain has assured the American ambassador at London that the foreign office of that government has directed its officers of administration to give every aid possible to the entomologist.

This open announcement of Great Britain's willingness to cooperate with America in the expedition was expected, as the people of South and West Africa have been suffering from these same evils for a number of years, and their scientists have been unable to

ence as a result of a paper which he read before the California Fruit Growers' Association, in which he charged that the campaign against the Mediterranean fruit fly as conducted here is a farce and declared that Inspector Weinland, representing the California State board of horticulture here, was negligent and not in sympathy with his employers. Severin urged that a quarantine be placed against Hawaiian bananas and pineapples, intimating that he had discovered that these fruits would carry the fruit fly to California.

Severin's paper failed to have its desired effect with the Californians, but it is believed that the position he assumed, without apparent grounds, against the interests of the Territory had much to do with his removal.

LORIMER EJECTED, VOTE 55 TO 28; SCENE DRAMATIC

[Associated Press Cable]

WASHINGTON, D. C., July 13.—Senator William Lorimer of Illinois, accused of bribery in securing the vote of the Illinois Legislature, was today ousted by a vote of 55 to 28, the majority report, exonerating him, being rejected, while the minority report against him was accepted.

Lorimer was ousted at the end of an impassioned and dramatic address. The scenes were sensational in the extreme.

American Runners Still Win

[Associated Press Cable]

STOCKHOLM, Sweden, July 13.—Reidpath of Syracuse University, intercollegiate quarter-mile champion, today won the 400-meter race in the Olympic games, defeating Braun, the German champion, who got second place. Lindberg of Chicago was third.

In the standing high jump Platt Adams of New York won, with his brother Benjamin Adams second, while the Greek champion, Tsilitaras, was third.

In the 3000-meter race, America finished first, Sweden second and England third, and American runners won even more decisively in the 5000-meter team race, U. S. teams taking first and third, with Sweden second.

Amateur Aviator Killed

[Associated Press Cable]

PALO ALTO, Cal., July 13.—Victor Morris Smith Jr., world's amateur champion aeroplane speeder, was instantly killed today in an aviation accident.

Senate Firm on Canal Bill

[Special Star-Bulletin Cable]

WASHINGTON, D. C., July 13.—The Senate today voted 40 to 34, to make the Panama Canal bill "unfinished business," which amounts to a refusal of England's request that the bill be delayed pending diplomatic negotiations.

An effort to put Democratic tariff legislation ahead was lost.

The Senate confirmed the appointment of William Marshall Bullitt, of Louisville, as solicitor-general.

Archbald Trial Delayed

[Special Star-Bulletin Cable]

WASHINGTON, D. C., July 13.—It is practically determined that Judge Archbald, of the Commerce Court, impeached for railroad corruption, will not be tried this summer.

Tornado Sweeping Michigan

[Special Star-Bulletin Aerogram]

GRAND RAPIDS, Mich., July 13.—Forty people in this vicinity have been injured by a tornado, and thousands of dollars worth of damage done. The coming of the tornado was sudden and people were taken unawares.

SUPERVISORS FORCED TO DENY AID FOR ARMORY

When the city and County supervisors considered the proposition of appropriating \$23,000 and did actually take steps toward giving \$14,000 towards the construction of a suitable armory building for the Hawaii National Guard, they acted without any power to grant such money, either directly or indirectly, inasmuch as a municipal corporation in appropriating public monies or in the exercise of any power is controlled absolutely by the enactments of the legislature.

First Deputy City and County Attorney, Fred Milverton fired a bombshell into the little gathering of city solons at noon today when he rendered an opinion to the effect that the powers of the supervisors of the city and county of Honolulu are limited by the provisions of certain acts of the session laws of 1907.

Milverton told the board members assembled that in attempting to pass a resolution calling for \$14,000 as a donation to an armory fund is ultra vires and invalid, and therefore advised that the city fathers drop the matter.

Upon the receipt of the Milverton
